# PRIMA COLOR

## THE NEW PRIMA COLORS

The new DUPLI-COLOR PRIMA is an acrylic quality with special GEL technology. This ensures special stability of the lacquer and thus effectively prevents the formation of runners. Our colored lacquers for indoors and outdoors owe their special appearance, their extraordinary brilliance and colour fastness to the best pigments and selected ingredients. This is how we achieve the impressive colour depth of the DUPLI-COLOR PRIMA range. The high binder quality ensures that the surfaces are extremely hard-wearing.
